

LO-K8 Pulse Wave Generator

Little Thumper Operation Instructions

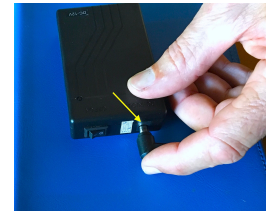

IMPORTANT!

IF PURCHASED WITH POWER BANK, ENSURE IT IS FULLY CHARGED BEFORE INITIAL USE.

Can take up to 2 hours using the 12v cigarette lighter plug or up to 8 hours with the USB cord.

- 1 Set power pack or power tool adapter down in a safe place **preferably off the ground and clear of water from the tap.**

Insert power lead into power bank or adapter.

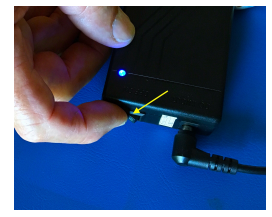

- 2 Connect the Thumper to the tap and turn the tap on about a half a turn.

- 3 Connect a hose to the bottom of the device to direct excess water away from work area.

- 4 Turn on the battery pack, switch is located on the right side of the device. (The device turns itself off within 15 seconds if no draw is detected)
Some adapters have a switch located at the end of the device.

- 5 Switch on the Thumper. The switch should flash and water flow on and off.
Once the thumper is running, you can adjust the pulse with the tap, more or less flow depending on the intensity you require.

IMPORTANT!

**After use: Disconnect from tap while still plugged into the battery pack.
Switch the Thumper back on and blow all excess water out of the device.**

WATER LEAK SOLUTIONS WARRANTY STATEMENT

This warranty against defects (“Warranty”) is given by Water Leak Solutions (“WLS, We, Us, Our”).

The WLS LO-K8 Thumpers are warranted, to the original owner, against manufacturing defects in materials and workmanship, for one full year from the date of purchase.

WLS will undertake, as its option, to replace or repair, free of charge, any product or part thereof that fails due to a manufacturing defect on the condition that:

- The complete product is returned to WLS, in person or freight pre-paid by you, and found, on examination, to be suffering from a manufacturing defect;
- The product or relevant part has not been subjected to misuse, neglect, or been involved in an accident; and;
- The repairs are not required as a result of normal wear and tear.
- For damage to be covered by Warranty an invoice (copy) from the purchase is required.

For warranty evaluation, your product must be returned directly to Water Leak Solutions at: 160/73 Nerang Street, Nerang, Queensland 4211. All shipping to Warranty must be pre-paid and insured. Water Leak Solutions cannot be liable for lost in-bound packages. We require that products accepted for warranty or repair have to be clean.

Damage not covered by warranty may be repaired for a reasonable rate, and a fee will be charged for return shipping. For repair, the fee for inbound and outbound shipping will be charged. In case the damage is covered by warranty no fee will be charged for return shipping. WLS cannot be held responsible for any repair other than those carried out by us.

WARNING

The following actions will result in the warranty being void:

- If the tool has been operated on a supply voltage other than specified in the instructions
- If the tool shows signs of damage or defects caused by or resulting from abuse, accidents or alterations.
- Failure to perform maintenance as set out in the instruction manual.
- Tool is disassembled or tampered with in any way.

The Power Bank and Adapters come with their own manufacturers warranty but please contact Water Leak Solutions on 0412506606 if you have any issues.

IMPORTANT NOTE FOR AUSTRALIAN CONSUMERS:

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure. Water Leak Solutions ABN: 77 901 836 216
